PDC 1124

Revised Time Standard for Receipt Processing

Rafael Gonzalez
Alternate DoD MILSTRAP
Administrator

Supply PRC Meeting 15-1
April 29-30, 2015

PDC 1124 - Receipt Time Standards

- Purpose: Revise MILSTRAP and DLMS time standards for processing receipts to support the DODM 4140.01 policy requiring that:
 - receiving activities record receipts no later than 5 business days from date materiel is received.
 - Make associated assets visible from the point of inspection and acceptance within 24 hours of recording receipts (holidays and weekends excepted).
- Changes:
 - Revise MILSTRAP Chapter 4 (Receipt), DLMS, Vol 2, Chapters 13 (Receipt), 16 (Disposition Services), and 20 (Medical Unit Assembly Program) to require recording receipts no later than 5 business days from date materiel is received.
 - Clarify in MILSTRAP/DLMS that the DODM 4140.01 receiving activity 5 day timeframe does not include the stow process.
 - DoDM 4140.01 policy applies to all receiving activities, hence update to Disposition Services chapter.

PDC 1124 - Receipt Time Standards

- Additional changes:
 - Clarify the MILSTRAP/DLMS impact of the DODM 4140.01 requirement for making assets visible from the point of inspection and acceptance within 24 hours of recording receipt.
 - Administrative updates to better align the MILSTRAP and DLMS procedures for time standards for processing receipts.
 - Remove MILSTRAP deviation granted to DLA over 10 years ago, which allowed DLA to process redistribution receipts within 10 calendar to include stow, days rather than 7 days. DOD MILSTRAP Administrator notes that the deviation was requested/granted as a temporary interim deviation.
